Benefits of Becoming a Patron

As a supporter of the Harrisonburg High School Journalism program, your name will be published in every issue of the Newsstreak on the Patron Page and on the website at www.hhsmedia.com.

The print edition is published each month and the website is updated daily with different stories from the print edition. The Newsstreak is delivered to all Harrisonburg High School students free of charge.

Money generated from the patron program is used to offset costs of attending national journalism conferences, to purchase computer and camera equipment and supplies for our publications room, and to print our newspaper. We truly appreciate any contribution made to our program and look forward to building a terrific working relationship between the Newsstreak and the Harrisonburg community patrons.
